

Xianzheng Ma (马宪政)

Greeting! I am currently a DPhil Student (10.2023-) at Department of Engineering Science, University of Oxford, supervised by [Prof. Victor Prisacariu](#) and [Prof. Iro Laina](#). I am a part of both the [Visual Geometry Group](#) as well as [Active Vision Group](#). I am currently also working closely with [Prof. João F. Henriques](#) and [Prof. Ingmar Posner](#).

My research interests include 3D computer vision and robotics. Previously, I focused on leveraging 3D Large Language Models to reason and understand the 3D world. More recently, I have shifted towards enabling robots to understand and interact with the physical world through video and 3D modalities, with a current emphasis on utilizing world models to improve the generalization capability of general-purpose robotic systems.

 **I am actively seeking research internship opportunities in robotics, particularly in areas related to world models (3D or video). Feel free to reach out!**

For any suggestions or collaborations, please reach out to me at xianzheng@robots.ox.ac.uk.

News & Updates (Last updated: 2026-06-05)

- [2026-06-02] 🏆 Our [PhysVid paper](#) has been selected for the **Best Paper Runner-Up Award** at the [CVPR 2026 Workshop on Video Generative Models: Benchmarks and Evaluation \(VGBE\)](#)!
- [2026-05-29] 🏆 Our [Real-3DQA](#) paper has been selected for the **Best Paper Runner-Up Award** at the [CVPR 2026 3D-LLM/VLA Workshop](#)!
- [2026-03-26] 🎁 Awarded the **Tencent Qingyun Student Travel Grant** for ICLR 2026!
- [2026-03-24] 🎁 Our [Inferring Dynamic Physical Properties from Video Foundation Models](#) paper has been accepted to [CVPR 2026 Workshop VGBE](#)!
- [2026-03-13] ✈️ I will be attending **ICLR 2026** in Rio de Janeiro, Brazil to present our [Real-3DQA](#) paper. Feel free to reach out if you'd like to connect!
- [2026-03-13] 🎁 Our Beyond Single Object paper has been accepted to CVPR 2026 as a Finding!
- [2026-02-28] 🎁 Our [See It, Say It, Sorted](#) paper has been accepted to CVPR 2026!
- [2026-01-22] 🎁 Our [Real-3DQA paper](#) has been accepted to ICLR 2026!
- [2025-10-21] 📢 We have released the [second version](#) of our 3D-LLM survey, updated to include literature up to July 2025.
- [2025-10-03] 📢 New preprint: [Inferring Dynamic Physical Properties from Video Foundation Models](#) is now available on arXiv.
- [2025-09-26] 🏆 Selected as an Outstanding Reviewer (top 3%) at ICCV 2025!
- [2025-02-25] 🎁 Our robotics [paper](#) has been accepted to CVPR 2025!
- [2024-05-16] 📢 Check out our [survey papers](#) for 3D-related tasks empowered by LLMs and other foundataion models.
- [2023-12-16] We curated a [Awesome-LLM-3D paper list](#) for 3D-related tasks empowered by LLMs.
- [2023-12-15] Two papers are accepted in AAAI2024.
- [2023-10-02] Start a new journey as DPhil (PhD) at [Visual Geometry Group](#) and [Active Vision Group](#) in University of Oxford!

Selected Researches (* Equal Contribution, † Correspondence Author, ‡ Equal Supervision)
